

Embracing The New Music Educator is a mentoring program offered through the collaboration of MMEA Northeastern District and Gordon College. ETNME focuses on connectivity: among those who are new to the world of music education; among those who teach in music education preparatory programs of colleges and universities; and among those mentors who wish to share their best teaching practices, wisdom and passion.

Embracing the New Music Educator has a mentoring database of thirty professionals who have volunteered their professional services to these young teachers. It is through their time and talent that this program offers:
